The opening was steady at an advance ranging from 8 to 10 points, which prices were about top for the session. Shorts were very nervous around the opening, the cables from Liverpool having shown up in decidedly better form than anticipated, while the crop movement failed to bear out predictions made last week. Moreover, there were numerical did to bear out predictions made last week. Moreover, there were numerical states of the South, stating that no cetton was to be had at anything like stating at almost any figure. Liverpool and New Orleans were identified as active buyers during the first few minutes. Hefore the close of the first hour, however, bullsh enthusiasm was dampined by a turn in the purport of cables and

quite a flurry of profit-taking by smaller holders. Prices rapidly went off before the reaction culminated, Friday's prices having been reached. By mid-day the feeling was firmer and most of the afternoon general recuperation was in progress on estimates for light receipts to-morrow. At the close the market was sleady, with prices net 4 points higher to 3 lower, the latter on the next crop positions only.
